The Manila Authorities Informed of Carefully Planned Ou break-Vigorous Measures Prevented It.

MANILA, Oct. 17 .- The authorities were informed Saturday from reliable carefully planned for daylight on Sunday. It falled to occur, probably on account of the vigorous measures enforced. Many natives of the Tonds district left, taking their valuables. All the small shops which the guards usually forced to close at 8:30 p. m. were shut at sunset. A general feeling of uneasiness was apparent.

The guards of the city were doubled and a strong force stationed at the slaughter house, the center of an unruly section. Two guns of the 6th artillery were stationed nearby at a point commanding the native quarter. The commanders of the reserve troops were ordered to be prepared for a call at daylight. Three native policemen have been arrested on a charge of plotting an uprising. The fact that their comrades informed the authorities of their treachery indicates that the police force is loyal.

A CRISIS IS IMMINENT.

The Peop's of Venezuela Have Risen Agains, President Andrade-He W.H. Probably He Forced to Retire.

CARACAS, Venezuels, Cct. 17 .- Ad vices from Petare, ten miles from Caracas, say the people have risen against President Andrade and a crisis is imminent here. The commander of the government forces has betrayed the president and will allow the revolutionary army to march upon Caracas without a battle.

President Andrade will probably be forced to retire, re-estalishing his government at Maracabo or Puerto Cabello. Tucasas has been taken by the revolutionary forces.

United States Minister Loomis made a long argument before President Andrade urging a suspension of the law relative to foreign insurance companies, the enforcement of which the minister said, would drive all such companies from Venezuela. The result of Mr. Loomis' argument was that a suspension of the law was granted until March, when the statutes will be amended by congress. This action saves \$6,000,000 worth of business to American companies.
